4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

State-certified technicians for information and communication technology work independently and/or within a team at companies which develop and offer information and communication technology products and services. They are also employed at government authorities and institutions.

5. OFFICIAL BASIS OF THE CERTIFICATE

Name and status of the body awarding the certificate Public or state-recognised vocational school (Address see certificate).	Name and status of the national/regional authority providing accreditation/recognition of the certificate Highest education authority of the federal state (Ministry/Senate)
Level of the certificate (national or international) ISCED: 2011:354 DQR/EQF: 4	Grading scale/pass requirements 1 = excellent 2 = good 3 = average 4 = pass 5 = poor 6 = fail In order to pass the examination, an overall score of at least "pass" is required.
Access to the next level of education/training <ul style="list-style-type: none"> • Access to advanced vocational training (specialist trade and technical school) • Subject-related access to higher education (in accordance with the Higher Education Act of the federal state) 	International agreements Joint Franco-German Declaration on Comparability of Qualifications in Vocational Education and Training of 26 October 2004
Legal basis Ordinance on Vocational Schools of the respective federal state	

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

- State final examination:
1. following completion of training within the scope of the curriculum stipulated at a full-time vocational school or
 2. following admission as a non-pupil by the education authority of the federal state.

Additional information

Entry requirements: intermediate secondary school leaving certificate or an educational qualification recognised as equivalent or entitlement to attend upper secondary school in accordance with the regulations of the respective federal state.

Duration of training: at least 2 years

Educational aim: Full-time vocational schools provide courses in initial vocational education and training. They impart employability skills which bring together professional competence, autonomy and social competence to form overall occupational competence. Methodological competence, communicative competence and learning competence are also intrinsic components of employability skills. Courses are aligned towards occupational work processes and company business processes. A practical placement may be integrated into training.
